Selection committee
Internship Program
University of Arkansas

Dear committee members,

I am writing this letter on behalf of NICOLAS GAITAN, an applicant for an internship program at the University of Arkansas.

I met Nicolás in 2018, while he was the TA of my class Ecosystem Services at Universidad de los Andes, in Bogota, Colombia. Nicolás is an advanced biology student. He is interested in computational biology and applied genomics in fungus-plant interactions. My perception of Nicolas is that he is a very responsible student that goes beyond the minimum requirements. He always helped the students with their questions and always were doing what he was supposed to do as a TA.

I do not have any doubts Nicolas is going to do an excellent job in this internship program. This is going to be an excellent opportunity for him.

Please do not hesitate to contact me if you have any questions about Nicolas,

Sincerely,

Carlos E. Guarnizo, PhD.
